

# Using water efficiently is a way of life in San Diego County

Help us make the most of our precious water resources.

Our policy is to launder room linens every three days for guests staying multiple nights. By reusing your linens, you can help us save thousands of gallons each month.

If you would like your linens changed more frequently, we are happy to honor your request – just place this card on your pillow in the morning.

Thank you for helping our region Live WaterSmart!
