\$480 monthly

All contracts will run through June 30 or December 31 annually.

Creative Best Practices

- Video ads are the most attention-capturing format. It's important to include a strong call-to-action.
- QR codes are highly recommended as attendees can quickly navigate to a link and it removes barriers to response. Special offers are recommended to attract visitors. The QR can also link to a map application to help visitors navigate to your business. All creative including QR code creation is the responsibility of the advertiser.
- Upon request, the SDTA team can make referrals for vendors to support ad creation.
- Ad creative may be updated during the contract term at the advertisers request.
