

Happiness is: The Perfect Climate for Productivity.

esri User Conference

Monday, July 15 – Friday, July 19, 2024

Anticipated Attendance: 17,000-20,000

(Actual Attendance in 2023 was 17,835)

Group Description

Esri (Environmental Systems Research Institute) is a leading global company in geographic information system (GIS) software, founded in 1969 by Jack and Laura Dangermond and headquartered in Redlands, California. Known for its flagship product, ArcGIS, Esri provides tools for spatial analysis, data management, and mapping. Their key products include ArcGIS Online, ArcGIS Pro, ArcGIS Enterprise, and Story Maps. Esri serves various industries, including government, business, education, and environmental science, helping users make informed decisions based on geographic data. They also offer training and support a large user community through events like the annual Esri User Conference.

Attendee Profile

Attendees include GIS professionals, government officials, business leaders, educators, researchers, environmental scientists, nonprofit representatives, technology partners, developers, and Esri staff.
