**Sunday, March 23<sup>rd</sup> – Thursday, March 27<sup>th</sup>, 2025**  
**Anticipated Attendance: 12,000**

#### **Group Description**

The American Chemical Society (ACS) is a scientific society based in the United States that focuses on advancing the field of chemistry. It's one of the world's largest scientific societies and a leading source of authoritative information about chemistry. The ACS publishes numerous scientific journals, organizes conferences, provides educational resources, and advocates for the importance of chemistry in society. Its membership includes professionals, researchers, educators, and students in the field of chemistry and related disciplines.

#### **Attendee Profile**

The American Chemical Society (ACS) Spring National Meeting & Exposition attracts a diverse group of attendees from various sectors within the field of chemistry and related disciplines. Chemists and scientists from academic institutions, research organizations, and private industries come together to exchange knowledge, discuss recent advancements, and collaborate on future projects. Graduate and postgraduate students also participate, presenting their research, networking with professionals, and attending sessions to enhance their learning. Industry professionals, including those from chemical manufacturing, pharmaceutical companies, and environmental consulting firms, attend to stay updated on the latest technologies, products, and research trends.
